

Dotmatics has licensed Vortex to Lycera.

Bishop's Stortford, 28th October 2008 – Scientific software company Dotmatics Limited (Dotmatics) is pleased to announce that Lycera Corp (Lycera) has licensed Dotmatics' Vortex to facilitate data visualisation.

Dotmatics' Vortex has the following advantages:

- Chemically-aware out-of-the-box
- Superior quality charting and analysis
- Built-in structure depiction and searching
- Import files (sdf, xls, csv...) or pull data from databases and web services

Peter Toogood, Vice President of Chemistry said: "Dotmatics' Vortex is a highly functional and intuitive application that is a welcome addition to our cheminformatics tool kit"

Steve Gallagher, Director at Dotmatics, said: "We are delighted to have Lycera as a customer and look forward to working with them closely to continue to develop our tools and services."

About Dotmatics

Dotmatics is a scientific software company deploying web-based knowledge solutions that dramatically improve the way scientific data is queried, browsed, managed, shared and visualised within companies. Dotmatics has significant expertise in cheminformatics techniques including chemical databases, SAR analysis, data management and data visualization. A privately-owned company, Dotmatics was founded in 2005 and is based south of Cambridge, UK.

Vortex is an advanced visualisation and analytics tool for scientific and non-scientific data.
